

# Dorin Laurentiu Vatan

## Full Stack Developer

As a senior full stack developer, I possess extensive proficiency in various programming languages, such as PHP, GO, JavaScript, MySQL, C++, and Java. In time I have successfully leveraged my skills in several prior roles, both collaboratively and independently, further validating my competence. My primary objective is to contribute my skills to a dynamic team environment while continuing to sharpen my programming abilities. I am currently seeking a suitable position that aligns with my professional aspirations.
